NEW YORK NEW HAVEN & HARTFORD RAILWAY
(Trolley Lines).

The New York New Haven & Hartford's interests in trolley lines have been very extensive, but under an agreement reached with the U. S. Government in 1914 the company has pledged itself to dispose of the same.

*The investments in the trolley companies held by the N. Y. N. H. & H., which are to be disposed of under the decree of the Federal Court (date by which New Haven is to dispose of these holdings has been extended from year to year, latest extension being to April 1 1926), are as follows:

Berkshire Street Ry.	The Vermont Co.
Connecticut Co.	Westchester Street RR.
New York & Stamford Ry.	Shore Line Electric RR. of N. Y.

* The Rhode Island Co. was originally included in this list, but the stock of that company was sold on Sept. 3 1920 at public auction—see that company on subsequent page.

In Oct. 1925 we were advised that the company had petitioned the Federal Court for a cancellation of the order to sell the New York and Massachusetts trolleys and for the return of the Connecticut Co. stock and the discharge of the trustees.

The N. Y. N. H. & H. also owns $4,984,938 of the $5,005,250 stock of the N. Y. Westchester & Boston Ry., an electric road, which it is under no obligation to dispose of and which will be developed as part of the New Haven system.—V. 99, p. 270, 604, **1125**, **1210**; V. 100, p. 642; V. 104, p. 2010.

CONNECTICUT COMPANY.

Control Passes to Trustees.—On Oct. 27 1914 the $40,000,000 capital stock of this co. held by New England Navigation Co. was transferred to five trustees, pursuant to the requirements of the U. S. Dept. of Justice. V. 99, p. 1451. The New Haven Co. has bound itself to sell the stock, and the trustees were to use their best endeavor to complete the sale before July 1 1919, but in March 1919 Judge Julius M. Mayer granted an extension of time until July 1 1921. V. 108, p. 1275 In April 1921 the time was again extended by order of the Federal Court, to July 1 1922. V. 112, p. 1616. In March 1922 the court further extended the time to April 1 1923. Since extended to April 1 1924, then to April 1 1925 and again to April 1 1926. The trustees are: Judge Walter C. Noyes of Old Lyme, Leonard M. Daggett of New Haven, Charles Cheney of South Manchester, Morgan B. Brainard of Hartford and Chas. G. Sanford of Bridgeport. See remarks under N. Y. N. H. & H. RR. Co. above and V. 98, p. 1000, 1245.

This is the company which operates the trolley lines in Connecticut controlled by the N. Y. N. H. & H., and which formerly were comprised in the Consolidated Railway Co.

Return of Line to N. Y. N. H. & H. R. RR. Suggested.—See V. 112, p. 1977; compare V. 116, p. 720.

Operation of Buses.—See V. 121, p. 1568.

NEW YORK

AMERICAN SUPER-POWER CORP.

ORGANIZATION AND CHARACTER OF BUSINESS.—Organized in Delaware, Oct. 26 1923, with broad powers to acquire and hold securities of electric power and light companies, to construct, operate or lease power stations and transmission lines and to act as fiscal agent for electric power and light properties.

BUFFALO, NIAGARA & EASTERN POWER CORP.

ORGANIZATION.—Incorp. in New York May 13 1925 for the purpose among others, of acquiring through stock control the properties of Buffalo General Electric Co., the Niagara Falls Power Co., Niagara Lockport & Ontario Power Co. and the Tonawanda Power Co. Corporation has obtained the consent of the New York P. S. Commission to hold all or any part of the common stock of each of the above companies. For terms of exchange, see V. 120, p. 2683.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The subsidiary companies are engaged in the production, transmission and distribution of electric energy, principally hydro-electric, in western and central New York, and extending into northwestern Pennsylvania. They serve a highly developed industrial territory extending from Erie, Pa., to and beyond Syracuse, N. Y., and from the Niagara frontier to Bradford, Pa. This territory includes 17 counties in New York and 2 counties in Pennsylvania, and its zone is roughly 300 miles from east to west, and 100 miles from north to south. Within this region over 2,000,000 people are served with light and power and of this number over 400,000 are either direct or indirect customers of the system.

Included in the territory directly served are the cities of Buffalo, Niagara Falls, Lackawanna, Jamestown and Olean, N. Y., and Bradford, Pa., while the cities of Rochester, Syracuse, Lockport, Batavia and Dunkirk, N. Y., and Erie, Pa., are supplied in whole or in part with electric energy through the system's transmission lines.

At the present time the system has a total operating capacity of about 850,000 h. p., of which about 80% is hydro-electric. The hydro-electric power is supplied by the plants of the Niagara Falls Power Co., located at Niagara Falls, on the American and Canadian sides, Niagara, Lockport & Ontario Power Co.'s plant on the Salmon River, and from their leased plant at Minetto, N. Y., on the Oswego River. Additional hydro-electric power is purchased from the Hydro-Electric Power Commission of Ontario, most of which is received under long-term contracts.

The capacity of the steam plants amounts to over 174,000 h. p. The system's largest steam plant is the River Road plant of the Buffalo General Electric Co., with an installed capacity of 126,600 h. p. Niagara Lockport & Ontario Power Co. has a steam plant at Lyons, N. Y., with an installed capacity of 40,000 h. p., and 2 smaller plants; a modern steam plant of 6,000 h. p. at Olean, N. Y., and a gas plant of about 1,500 h. p. at Bradford, Pa.

In addition to these sources of power, interconnections have been made with the Power Corporation of New York system, which operates hydro-electric and steam plants in northern and central New York and supplies cities, villages and towns in and through several counties in that section with the Mohawk-Hudson Power system, which owns and operates both hydro-electric and steam plants in central and eastern New York, and supplies cities, villages and towns in and through several counties in that section; with the Mohawk-Hudson Power system, which owns and operates both hydro-electric and steam plants in central and eastern New York, and supplies cities, villages and towns from central New York east to the eastern

boundary of the State (the Mohawk-Hudson Power system also is interconnected with the New England Power system); with the Penn Public Service system, which owns and operates hydro-electric and steam plants in the States of Pennsylvania and Maryland, and with the system of the Hydro-Electric Power Commission of Ontario, at Niagara Falls, Ont.

As a result of these inter-connections, a super-service system unites generating capacities aggregating considerably more than 2,000,000 h. p.

Owns stock of N. Y. & Queens County Ry., 73 miles, and (jointly with Long Island RR.) the N. Y. & L. I. Trac. Co. and Long Island Elec. Ry., total 68 miles. V. 80, p. 2621; V. 83, p. 818; V. 86, p. 1100. Announced in Jan. 1923 that trolley lines in Queens would be dropped. V. 116, p. 295. "Outside assets" in Dec. 1917, V. 103, p. 2365.

New Lines.—On Mar. 19 1913 an agreement was signed between the city and this company (V. 94, p. 1507, 1565; V. 96, p. 62, 359, 1701) and the B.R.T. Co. (now B. M. T.), providing for the establishment of comprehensive dual systems of rapid transit serving all boroughs.

The official statement to the N. Y. Stock Exchange, dated June 30 1913, was published in "Chronicle" of Aug. 16 1913, pages 450 to 455, giving full particulars as to new contracts, bonds, &c. See also V. 97, p. 744, 1024.

Subway Leases, New and Old, to Run 49 Years—Re-Capture.

The lease by the city to the co. of the new subways is for 49 years from Jan. 1 1917, but if their completion should be delayed through no fault of the co., the beginning of the term will be correspondingly postponed (date now set Jan. 1 1919); subject, however, to city's right of recapture after 10 years.

The leases of the original subways as modified expire contemporaneously with the lease of the new subways, but are not subject to termination by notice except as portions thereof may be taken over in substitution for the 7th Ave. branch or the Lexington Ave. branch of the new subways in order to complete a direct longitudinal line, either upon the East Side or upon the West Side of the city. As to the old contracts, Nos. 1 and 2, see "Railway & Industrial" Supplement of Feb. 1913 and V. 96, p. 1701.

The authorizations and licenses for the elevated railway extensions and additional tracks are for 85 years from the beginning of operation, and are respectively subject to the right of the city to purchase and take the property at any time after 10 years upon payment therefor.

Under the pooling agreement with the city which became effective Jan. 1 1919, all the receipts of the old and new lines of Interborough system, with the exception of the old elevated lines, will be placed in a common pool, from which will be deducted taxes, maintenance, oper. expenses, depreciation, the co.'s preferential and interest and sinking fund payments upon the city's and the co.'s investments in the new lines. After these charges are paid the amount of revenue remaining will be divided equally between the city and the company. V. 107, p. 501, 401.

Interest on the securities issued to construct and equip the new lines was a charge to construction until, and to the extent of, the completion and commencement of operation of the new lines. Under its contracts with the city the co. was reported in Jan. 1919 to be entitled to take, on basis of convertible note issue of 1918, out of the revenues of the I.R.T. system, an annual sum which, with $500,000 other corporate income, will provide $17,620,072, as compared with $13,101,255 required for interest and sinking fund on all bonds and notes outstanding in the hands of the public; but in Jan. 1919 not over $9,700,000 of the sum last named was expected to be a charge against the earnings of the year 1919, owing to the delay in putting the new lines in operation. See below and V. 108, p. 171, 268; V. 107, p. 1100.

The amounts payable to the co. out of the revenues of its subways (compound int. being allowable on any deficiency in any fiscal year) are to be paid before the city becomes entitled to the int. on its investment under its 1913 subway contract with the co. The amounts payable to the co. out of the revenues of its elevated lines (compound int. being allowable on any deficiency in any fiscal year) are to be paid before the city shares any profit from the operation of the elevated lines.

When the profits from the operation of the *subway system* exceed the amount of the co.'s annual prior claim, and after all accumulated deductions (with int. thereon) shall have been made up to the co., the profits then remaining are to go to the city until the percentage of the city's return upon its investment shall equal the percentage of the return received by the co.; and thereafter excess profits will be divided equally between the city and the co. The profits from the *elevated system* and connections, after all the co.'s accumulations shall have been made up, are to be divided equally between the city and the co.

Readjustment Plan, Dated May 1 1922.

The plan of readjustment for the Manhattan Elevated and Interborough properties, outlined below, was accepted by the security holders concerned. (V. 115, p. 1730.) The main purpose of the plan was to provide for the capital requirements and arrears of the Interborough system, estimated at about $30,000,000, and to readjust the Manhattan dividend rental. Under the plan the Interborough Consolidated Corp., which is the successor to the Interborough-Metropolitan Co. as the holding co. controlling the Interborough Rapid Transit Co., will disappear with its $45,740,500 of pref. stock and its 932,626 no par shares of com. stock and its $63,808,000 of coll. trust 4½% bonds. In place of these securities the $35,000,000 of Interboro. Rapid Transit Co. stock will remain. V. 114, p. 2011; V. 115, p. 2159.

Summary of the Main Features of the Plan.

Manhattan Rental.—The Manhattan rental is to be payable out of the earnings of the combined systems after the payment of interest charges and is to be at the following rates:

For the fiscal year beginning July 1 1922, 3%.
For the fiscal year beginning July 1 1923, 4%.
For the fiscal year beginning July 1 1924, and subsequent years, 5%.

These preferential payments are to be cumulative and must be made to the Manhattan stockholders if the earnings exist.

In case 4% divs. should be paid in any year upon Interborough stock, any further distribution of divs. for that year is to be divided upon a prescribed basis between the Interborough stock and the Manhattan stock until the total divs. upon the Manhattan stock for that year have reached 7%.

Interborough Dividends Limited to 7%.—No divs. shall be paid upon the capital stock of the Interborough Co. (*a*) before July 1 1926, nor (*b*) out of income accruing prior to that date, nor (*c*) unless and until the foregoing Manhattan cumulative div. rental and all taxes upon the Manhattan property and all div. rentals accruing to and incl. July 1 1922 shall have been paid in full. The divs. to be paid upon the stock of the Interborough Co. in any year prior to July 1 1950 shall not exceed 7%.

After July 1 1950 no div. shall be paid in excess of 7% per annum, and no other distribution of corporate assets shall be made if such payments reduce the aggregate net value of the assets of the Interborough Co. below $35,000,000 unless such div. or distribution shall have received the consent of the Manhattan directors.

Existing Current Obligations and Arrears to be Paid.—Provision is to be made for the payment of all existing current obligations, including the arrears of rentals at the present rate and taxes under the Manhattan lease down to July 1 1922, the beginning of the next fiscal year.

Maintenance and Improvement of Manhattan Property.—Provision is to be made to insure the application of a proper amount to the maintenance and improvement of the Manhattan property, including the installation of turnstiles at stations and pneumatic control doors for cars.

Sinking Fund of Interborough Bonds Waived Five Years.—The interest payments on the Interborough 5% first mtge. bonds and on the secured notes is to continue uninterrupted, but in order to increase the amounts available for the improvement of the Interborough properties and other capital purposes, the sinking fund in respect of the Interborough 5% mortgage bonds is to be waived for a five-year period.

Notes.—90% of the Interborough secured notes due Sept. 1 1922 were renewed for 10 years, the remaining 10% being paid in cash.

A new issue of $15,000,000 6% notes was auth., of which $10,500,000 were issued to provide for capital expenditures.

To carry out provisions of the plan a voting trust was established. Voting trustees are: Frank Hedley, Guy E. Tripp and Frank L. Polk. The voting trust is to continue in force until Oct. 1 1927.

For further details of plan, compare V. 114, p. 2011, 2240.

VALUATION.—V. 114, p. 1765.

Payment of All Accruals on Non-Assenting Manhattan Ry. Stock.—Beginning Oct. 1 1925 the co. would pay all installments of dividend rentals which have accrued upon the non-assenting stock of the Manhattan Ry. from and incl. Jan. 1 1922 to and incl. Oct. 1 1925 upon presentation and transfer of these certificates of stock in respect of which such installments have accrued. For more particulars see V. 121, p. 1461.

Fare Increase.—On May 14 the company renewed its agitation for a 7-cent fare, see V. 120, p. 2550, 2815. Advertising contract with Street Rys. Advertising Co. of New Jersey for 18 years. V. 121, p. 329. Wage agreement renewed for one year till July 1 1926. V. 121, p. 457.

Bonds.—The "First and Refunding Mortgage" of 1913 is limited to $300,000,000, of which $170,000,000 was underwritten early in 1913. In June 1923 $162,106,000 was outstanding and a further $59,602,000 had been pledged to secure the secured convertible 7% notes due in 1932. Listing, V. 108, p. 2629.

The bonds became, Nov. 1 1913, a first lien on all leasehold and othe. rights of the company in (*a*) the existing subways and elevated lines (including power houses, sub-stations, equipment, real estate, &c., owned directly by the Interborough Co. subject to the city's rights under the lease) and (*b*) in the new subway and elevated line extensions and in the authorized additional tracks on the present elevated lines. Cumulative sinking fund of not less than 1% yearly of amount out began July 1918, and is to retire entire issue. Sinking fund waived for 5 years (see readjustment plan above).

In case the city shall exercise its right of re-capture of any of the new lines, after 10 years from commencement of operation, the moneys so payable will retire all outstanding bonds issued for constructing and equipping same. Int. payable at Treasurer's office, 165 B'way, N. Y. City.

Secured Convertible Notes.—90% of the $38,144,000 Interborough secured notes, maturing Sept. 1 1922, were extended as per plan for a period of ten years, the remaining 10% being paid in cash. Red. in whole or in part at par and int. and a premium of ¼ of 1% for each unexpired semi-annual period of the ten-year term. Int. at office of J. P. Morgan & Co., N. Y.

Ten-Year 6% Notes.—Until the payment of these notes the co. will not sell or issue any 1st & ref. mtge. bonds, except upon the conversion of its secured conv. gold notes (or renewals or extensions thereof) or for the purpose of paying the principal of these 10-year 6% gold notes. Red. at par and int. plus a premium of ¼ of 1% for each unexpired semi-annual interest period of the ten-year term. Int. at Treasurer's office, 165 B'way, N. Y. City.

In addition to the notes shown in table above, there were outstanding on Sept 30 1925 three-year secured convertible 7% gold notes, dated Sept. 1 1918, as follows: Extended at 8%, $10,800; not extended, $9,000.

MANHATTAN RY. (ELEVATED).

ORGANIZATION.—*Lease.*—The Interborough Rapid Transit Co. leases the road for 999 years from 1875. Divs. were originally guaranteed at rate of 7% per ann., but under terms of readjustment plan rental was reduced as follows: For fiscal year beginning July 1 1922, 3%; for fiscal year beginning July 1 1923, 4%; for fiscal year beginning July 1 1924 and subsequent years, 5%. These preferential divs. are payable out of the earnings of the combined Interborough R. T. and Manhattan Ry. systems after the payment of interest charges, and are to be cumulative. In case 4% divs. should be paid in any year upon I. R. T. stock, any further distribution for that year is to be divided upon a prescribed basis between the Interborough stock and the Manhattan stock until the total divs. upon the Manhattan stock for that year have reached 7%. See Interborough Rapid Transit Co. above.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns elevated railroads in the boroughs of Manhattan and the Bronx, N. Y. City, main line and branches, 37.67 miles, with 92.52 miles of 2d, 3d, 4th and 5th track, sidings, &c.; total track, 130.19 miles; 3d rail electric. The 2d, 3d and 9th Ave. lines, under agreement with the city made in March 1913, have been largely 3-tracked, the Interborough Rapid Transit Co. supplying the funds.

Decision.—Supreme Court Justice Ford, in a decision handed down Feb. 18 1924 in a Manhattan stockholder's suit to recover from the Interborough company back dividends on the Manhattan guaranteed stock, held that the Interborough company must pay the 7% dividend rental to stockholders who declined to participate in the Interborough-Manhattan readjustment plan. V. 118, p. 794. A similar decision was handed down by Justice Mullan in May 1924. V. 118, p. 2437. Affirmed by Appellate Division of N. Y. Supreme Court April 3 1925. Affirmed by Court of Appeals. It is estimated that only 5% of the stockholders of the Manhattan Co. are affected.

Payment of All Accruals on Non-Assenting Manhattan Ry. Stock Begins Oct. 1 1925. See under "Interborough Rapid Transit Co." on a previous page (V. 121, p. 1461). V. 120, p. 1747; V. 121, p. 329, 586.

BROOKLYN CITY RR. CO.

ORGANIZATION.—Incorp. in New York in 1853. Was leased on Feb. 14 1893 to the Brooklyn Heights RR. Co. for 999 years, the lease guaranteeing all fixed charges, organization expenses, taxes and 10% dividend [Oct. 1919 and subsequent dividends not paid—see B. R. T. below] on $12,000,000 of stock (par $10). The lease was nominally to the Brooklyn Heights RR. Co., but the Brooklyn Rapid Transit Co. (now B.-M.-T.) owned entire capital stock of the Brooklyn Heights Co. The Brooklyn Heights RR. Co. was placed in the hands of a receiver July 14 1919, and in accordance with the decree of U. S. District Court, dated Oct. 16 1919, disaffirmed the lease and returned the property to the Brooklyn City RR. Co. Oct. 19 1919. In Oct. 1923 we were informed that the Brooklyn Heights Co. was being liquidated. No further information.

FIELD OF OPERATIONS.—Owns 209 miles of track and operates approximately 219 miles. Has approximately 991 motor passenger cars and 131 motor service cars. Power is purchased from B. M. T.

Guaranty Fund.—Under the terms of the lease it was provided that a fund of $4,000,000 should be deposited with certain trustees by the Brooklyn Heights RR. Co. as a guarantee of the performance of the terms of the lease. It was further provided that in the event of the termination of the lease by reason of any breach, default or omission, the "said guaranty fund of $4,000,000 . . . shall at once become the sole and absolute property of the lessor." This guaranty fund consisted of the following: $2,000,000 Brooklyn Queens County & Suburban first mtge. 5% bonds; $1,627,000 Brooklyn City RR. first 5s; $125,000 Brooklyn City RR. refunding 4s; $25,000 B. R. T. first 5s; $250,000 B. R. T. first refunding 4s.

By agreement dated Nov. 19 1923, the Guaranty Fund controversy was adjusted as follows: $275,000 Brooklyn City RR. ref. 4s held by the B. M. T. were substituted for the $250,000 B. R. T. ref. 4s and $25,000 B. R. T. 1st 5s. All the Brooklyn City RR. bonds, consisting of $1,627,000 5s and $400,000 4s, were delivered free and clear to the Brooklyn City RR. Co. $2,000,000 Brooklyn Queens County & Suburban 1st mtge. 5s were delivered to the B. M. T. under a stipulation that the Brooklyn City RR. should receive a $2,000,000 offset against any recovery on the so-called $10,000,000 construction suit. It was further provided that if there should be no recovery on the construction suit, then Brooklyn Queens County & Suburban bonds should be returned to the Brooklyn City RR. Co. or the pro rata amount of the recovery, should it be less than $2,000,000.

The company has no power houses of its own but has a contract with the receiver for the B. R. T. by which it is supplied with power. The company makes weekly payments of the amounts which is estimated will be found due for power. The amounts are not fixed and vary from time to time.

The company has a claim against the B. R. T. for the demolition of the Brooklyn City power house.

Suit.—The receiver for the B. R. T. brought suit against the company to recover $10,000,000, alleged to have been expended by the Brooklyn Heights Co. under its lease. The company in its answer denies any liability. V. 113, p. 2612.

Objections to Valuation of Transit Commission.—V. 114, p. 1285.

Rapid Transit. and the Court of Appeals at Albany having on June 30 1912 affirmed the decision of Justice Blackmar (V. 94, p. 1057) holding to be constitutional the terms of the proposed contracts with the Interborough and B. R. T., formal contracts were drawn up by the P. S. Comm. and were signed on Mar. 19 1913. V. 96, p. 862. See caption "Rapid Transit in New York City" in V. 94, p. 1384, 1449, 1566; V. 95, p. 48, 111, 237, 1040; V. 96, p. 63, 136, 488, 716, 864. For description of new subway lines, built and to be built jointly by the Brooklyn Rapid Transit (now B.-M. T.) and the city, see "Electric Ry. Supplement" of Oct. 28 1922 under B. R. T. See also V. 120, p. 1088.

Suit Against Bklyn. City RR.—The receiver for the old B. R. T. brought suit against the Bklyn. City RR. to recover $10,000,000 advanced to that company prior to the designation of the receivership. V. 113, p. 2612. This case is still pending.

Suit Against City.—In Dec. 1918 the N. Y. Municipal Ry. Corp. and the N. Y. Consolidated Ry. Co. brought suit against the city of New York and the P. S. Comm. to compel completion of the city transit system in accordance with the contract of March 19 1913. The plaintiffs alleged that, notwithstanding the elapse of 6 years since the execution of the dual contracts there remained unfinished and still to be constructed or completed 47 miles of track out of a total of 115, and 19 miles of road out of a total of 41 of the lines which the city assumed to construct by Jan. 1 1917 and which the company agreed to equip and operate. For further details see V. 107, p. 2288. In April 1922 the receiver for the N. Y. Municipal Ry. Corp. and the N. Y. Cons. Ry. Co. filed a bill of complaint in the U. S. Dist. Court to compel the carrying out of these contracts and to recover alleged damages incurred as a result of the city's alleged failure to perform its contract obligation. V. 114, p. 1764. The city has filed an answer asking the dismissal of the suit. For details see V. 114, p. 2358. Motion to dismiss suit was denied on Oct. 21 1924 by Federal Judge Knox. V. 119, p. 1951. In July 1923 B.-M. T. took over handling of suit from counsel for receiver. See V. 117, p. 322. On Jan. 3 1924 Judge Mayer granted a motion of the New York Rapid Transit Corp. to intervene in this suit. V. 118, p. 85. The city and the Transit Commission appealed to the U. S. Supreme Court from the order granted by Judge Mayer permitting the Rapid Transit Corp. to intervene, but on June 2 1924 the appeal was dismissed by the U. S. Supreme Court, which ruled that it was without jurisdiction. V. 118, p. 2823. Compare V. 118, p. 1268. See also V. 119, p. 2409.

Plan of Transit Commission for Merger of New York City Street Railways.—The N. Y. Collier, Inc., for the advertising and vending privileges of the subway and elevated lines of the system, under terms of which the latter agrees to pay a minimum of $15,000,000 for 15 years as follows: $900,000 a year for the first 5 years, $1,000,000 a year for the second 5 years, and $1,100,000 a year for the third 5 years. COMPANIES CONTROLLED BY BROOKLYN-MANHATTAN TRANSIT CORP.

(1) NEW YORK RAPID TRANSIT CORPORATION.

ORGANIZATION.—Organized in New York on June 9 1923 as a consolidation of the New York Consolidated RR. and the New York Municipal Ry. Corp., succeeding those companies as per B. R. T. reorganization plan, for details of which see "Electric Railway" Supplement of April 28 1923. For history of N. Y. Consol. RR. and the N. Y. Municipal Ry. Corp. up to time of reorganization also see "Electric Railway" Supplement of April 28 1923. The co. as now constituted owns and operates the rapid transit lines of the B. R. T. system (now B.-M. T. Corp. For digest of readjustment plan and particulars regarding exchange of securities under plan see V. 116, p. 2130.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns 172.004 miles of track; leased (incl. trackage rights), 124.089 miles; total, 296.093 miles. Leases for 999 years from 1915 the Nassau Electric RR.'s terminal at Coney Island. See "Electric Railway" Supplement of April 28 1923 for terms of lease.

Division of Earnings with City.—As the Corp. now holds all the rights originally acquired by the New York Municipal Ry. Corp. in the latter's contracts with the city, all the earnings accrue to it. The division of earnings is on the following basis:

1. To the company, $3,500,000, as representing the net earnings of the previously existing railroads which went to form part of the new rapid transit system. Out of this reservation the company pays interest charges on capital investments prior to Mar. 19 1913 in the then existing railroads.

2. To the company, 6% on its new investment in construction and equipment prior to the beginning of permanent operation and thereafter interest and 1% sinking fund.

3. To the city, interest and 1% sinking fund on its investment in cost of construction.

4. Any surplus remaining, after making provision for a moderate contingent reserve fund, is to be divided equally between the company and the city. The company's preferential payments are to be cumulative.

Suit Against City.—See under B.-M. T. above.

Upon completion of readjustment and reorganization the co. will be capitalized approximately as follows:

Bonds.—The 1st & ref. mtge. bonds will constitute a lien (ahead of the ref. mtge. and subject only to the existing underlying elevated railroad bonds on certain of the properties) on the rights existing under Contract No. 4 and allied certificates and on all the other properties of the N. Y. Rapid Transit Corp. The bonds are to be issued only for the purpose of providing (after the exhaustion of the moneys—$5,000,000 improvement fund for future improvements already deposited—provided in the reorganization for such purpose) for the cost of additional equipment and additions and betterments for the rapid transit lines or power house properties, provided after July 1 1923 under Contract No. 4 and the allied certificates, and also for the purpose of refunding any bonds previously issued and outstanding under this mortgage and any of the existing underlying elevated railroad bonds. None of these bonds will be issued in reorganization. Pending the consummation of the proposed inclusion of the power plant properties under Contract No 4 and (or) the allied certificates and the transfer of those properties accordingly, the reorganization committee may authorize the creation of a power plant 1st mtge. of substantially the same character as the N. Y. Rapid Transit Corp. 1st & ref. mtge. Such mortgage may be created and the bonds thereunder issued either by the new co. itself, if the title to the power plant is permitted to remain therein, or by a subsidiary co., if title to the power plants be vested in a subsidiary. None of these bonds will be issued in reorganization.

Bonds of the Brooklyn Union and Kings County Elevated RR. are listed on New York Stock Exchange. In July 1925 Wm. Litigation has arisen with Long Island RR. regarding the use of Atlantic Avenue. See V. 74, p. 1139. In Oct. 1910 N. Y. Receivership of Steinway Railway

On April 27 1922 Justice Callaghan in the Queens County Supreme Court appointed S. W. Huff and R. C. Lee receivers for Steinway Ry. upon application of Guaranty Trust Co., trustee under the first mortgage of the Steinway Ry., interest on which was defaulted. The order provided that the receiver take over only the property which originally belonged to the Steinway Co. (V. 114, p. 1891.) The receivers put into effect a separate 5-cent fare on that part of the system against the orders of the Transit Commission, but the action of the receivers was sustained by the Court. V. 114, p. 2116, 2360.

In view of the default in the payment of the int. due Jan.1 1922 on the Steinway Ry. 1st M. 6s and the then impending default of prin. & int. due July 1 1922, two committees were formed to protect interests of holders of these bonds. One committee was headed by H. B. Thorne (V. 113, p. 2819) and the other by Geo. W. Davison (V. 114, p. 80). The first named committee arranged to pay the Jan. 1 1922 coupon. V. 114, p. 80. Later the two committees were consolidated. The committee resulting from the consolidation is composed of:

Committee for Steinway Ry. 1st Mtge. 6s.—Geo. W. Davison, Roswell Eldridge, Walter E. Frew, Harold B. Thorne and Wm. Carnegie Ewen. Depositary, Central Union Trust Co., N. Y. City. V. 114, p. 307.

PUBLIC SERVICE ELECTRIC & GAS COMPANY.

All the com. stock is owned by the Public Service Corp. of N. J.

ORGANIZATION.—Formed in 1924 as a consolidation of the Public Service Electric Co., Public Service Gas Co. and United Electric Co. of N. J. as per plan outlined in V. 118, p. 1268, 2705. It is planned eventually to merge into the consolidated co. all stock-owned electric and gas companies and to vest in it the ownership of leasehold estates which comprise the balance of the electric and gas systems. It is further planned to offer to the stockholders of certain gas and electric cos. leased the opportunity to exchange their stocks for other securities, so that, eventually, these cos. also may be consolidated with Public Service Elec. & Gas Co. These consolidations are not an essential part of the plan, however, as the leases in question extend in practically all cases for terms upwards of 900 years. In accordance with these plans, however, 7 companies previously operated under lease were merged into the co. on Dec. 3 1924. Notes due June 3 1925 and bearing interest at 6% were given by Public Service Electric & Gas Co. in exchange for the stock of the merging companies as follows:

	Shares.	*Par Value.*	*Amt. of Notes.*
Burlington Electric Light & Power Co	351	$17,550	$17,550

Weehawken Contracting Co., common	1,400	70,000	41,050

The entire capital stocks of these companies, with the exception of 8 shares of the stock of Princeton Light, Heat & Power Co., were owned by Public Service Corp. of N. J. V. 119, p. 3011. For histories as separate organizations of Public Service Elec. Co., Public Service Gas Co., United Electric Co. of N. J., and above-mentioned leased cos. merged, see "Electric Railway" Supplement of April 26 1924.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Co. serves with electricity and gas a population in New Jersey estimated at over 2,600,000, or over 80% of the population of the State. The territory served includes the larger cities and more populous sections of the State. The territory extends from the Hudson River opposite New York City, southwest across the State to the Delaware River opposite Philadelphia, and includes Newark, Jersey City, Paterson, Trenton, Camden, Elizabeth, Bayonne, Hoboken, Passaic, the Oranges, Perth Amboy, West Hoboken and New Brunswick.

The company's electric system as of Dec. 31 1924 included 14 generating stations with an aggregate rated capacity of over 550,000 h.p., 1,061 miles of transmission lines and 27,804 miles of distribution wire, serving over 525,500 electric customers. Its gas system included 10 generating plants with an aggregate capacity of 81,950,000 cubic feet daily and 3,646 miles of mains, serving over 643,050 gas customers.

Franchises.—With minor exceptions, the franchises under which the company operates are, in the opinion of counsel for the company, perpetual and contain no burdensome restrictions.

Valuation.—The property of the co. and its leased cos. (not incl. any of that leased from the Public Service Electric Power Co. or the electrical property leased from Public Service Ry.) was valued by Day & Zimmermann, Inc., engineers, as of Jan. 1 1924, at over $245,000,000. V. 119, p. 589.

In June 1925 the New Jersey P. U. Commission authorized the company to issue $2,500,000 first and ref. mtge. gold bonds, due 1965, at 93½ and int., and 750,000 additional shares of common stock, no par value, at $10 per share. The application for the issuance of 50,000 shares of 6% cum. pref. stock and 1,000,000 additional shares of common stock was held up for further investigation. V. 120, p. 3316. In Oct. 1925 the Commission granted the issuance of 1,000,000 common shares at $10 per share. V. 121, p. 2039.

(a) PHILADELPHIA COMPANY.

Control.—In 1906 the United Railways Investment Co. (see above) acquired control. $24,575,000 common stock is now owned by the United Railways Investment Co. through the Pittsburgh Utilities Corp. (see above)

ORGANIZATION.—Organized on May 24 1884, and was originally a natural gas company. Operates under special Act of the Legislature of Pennsylvania (conferring many valuable rights and privileges) granted to its predecessor, the Empire Co., in March 1871. *Franchises* of the company and its subsidiaries, with a few minor exceptions, are perpetual or for 999 years.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The Philadelphia Co. is a *holding company* which controls through stock ownership and leases public utility companies whose business may be classed under the following heads:

(1) *Natural Gas and Oil.*—Philadelphia Co., through stock ownership, controls a number of companies which supply nearly all the natural gas consumed in the city of Pittsburgh and the manufacturing towns lying along the Monongahela and Allegheny rivers. These companies control by lease 381,940 acres of gas and oil lands in West Virginia and Western Pennsylvania. In 1913 the Pittsburgh & West Virginia Gas Co. purchased the Monongahela Natural Gas Co. by the issue of $1,500,000 collateral trust notes. The principal natural gas companies controlled are:

The Philadelphia Co. of West Va.	Pittsburgh & West Virginia Gas Co.
Equitable Gas Company.	Monongahela Natural Gas Co.

During the 12 months ending Dec. 31 1924 company sold 28,304,734,900 cu. ft. of gas and produced 119,926 bbls. of oil. On Dec. 31 1924 owned or controlled 1,772 gas wells and 3,791 miles of pipe. Also owned or controlled 176 oil wells.

(2) *Electric Light and Power.*—The Philadelphia Co. controls through stock ownership the Duquesne Light Co., which forms the electric light and power division. See statement on a subsequent page.

(3) *Street Railways.*—These comprise about 640.23 miles of track, all operated (as a matter of convenience and economy) by the Pittsburgh Railways Co. (except the Clairton Street Ry. Co., the Beaver Valley Traction Co. and the Pittsburgh & Beaver Street Ry. Co., which are operated separately).

The Phila. Co. in Jan. 1908 offered to guarantee 4% per ann. from Aug. 1 1907 on the $2,000,000 pref. stock of Consol. Gas Co. (entitled to 6% cum.), provided additional earnings be divided equally between the two classes of stock, but pref. not to receive more than 6% in any event. Holders of 75% of the $2,000,000 pref. stock having agreed to the proposition, the plan was adopted. V. 86, p. 54, 605.

Proposed Reorganization Plan.—See under Pittsburgh Railways Co. below.

In July 1925 directors approved an expenditure of $100,000,000 in the next 5 years for improvements, &c. V. 121, p. 76.

STREET RAILWAYS.

1. PITTSBURGH RAILWAYS CO.

Receivership Terminated.—On Jan. 30 1924 Federal Judge Thomson at Pittsburgh signed a decree ordering a return of the properties of the company to the owners and lifting the receivership, which had been in effect since April 23 1918, at midnight Jan. 31 1924. V. 118, p. 552. Compare V. 118, p. 432; V. 117, p. 2139.

Proposed Reorganization Plan.—A plan for the reorganization of the system embodied in an agreement proposed to be executed by the City of Pittsburgh, the Philadelphia Co. and the Pittsburgh Rys. Co. was presented to the Pittsburgh City Council July 25 1921. The plan contemplates the reorganization of the co. or the formation of a new co. to take over all its assets. The new co. would be limited to $62,500,000 in the issuance of securities in substitution of securities now outstanding amounting to $156,000,000. An annual return of 6% for 10 years is allowed on the new capitalization, which is the value of the railways properties as fixed by the P. S. Comm. (see below under "Valuation"). The city is given a voice in the control of the co. The proposed plan was printed and copies distributed by the Municipal Law Dept. of the City of Pittsburgh. For full details of plan see V. 113, p. 533, 731. Nineteen boards of trade, chiefly outlying districts entered into a joint protest against the proposed plan, but it is understood that no appeal will be made to the Superior Court. V. 114, p. 1288, V. 113, p. 1252. The above plan was approved by the Pittsburgh City Council, with certain amendments (see V. 113, p. 2721), and signed by the Mayor and A. W. Thompson, Pres. of the co., in Dec. 1921 (V. 113, p. 2721). On Feb. 14 1922 the Penna. P. S. Comm. approved the plan, V. 114, p. 855. No details as to the actual basis of the proposed financial readjustment are as yet available. V. 114, p. 1288. See also V. 115, p. 870, 2268, 2378, 2686; V. 116, p. 1412, 2516; V. 117, p. 1018, 1664, 1778; V. 118, p. 1666; V. 119, p. 1845.

Default—Subsequent Payments.—The company failed to pay the Jan. 1 1918 interest on the bonds of a number of subsidiaries and the directors of the Philadelphia Co., which was already a creditor of the Railways Co. for a large amount, refused to make it further loans. All the Jan. 1 1918 coupons, except on the United Traction 5s, were paid in March 1918. V. 106, p. 930, 1232. Coupons on the United Trac. 5s have since been paid from time to time. V. 113, p. 2722; V. 114, p. 80.

Holders of $313,000 Pittsburgh & West End Passenger Ry. 1st Mtge. 5s due July 1 1922 were asked to convert their holdings into West End Traction gen. mtge. 5s, due Jan. 1 1938. For details see V. 115, p. 183. Up to Apr. 1 1925 $29,000 had been so converted, balance of $314,000 being paid int. at the rate of 5%. Compare V. 117, p. 1993.

The company as of Oct. 1 1925 was in default in the payment of the following rentals due subsidiary companies:

Due Nov. 1 1920 to Nov. 1 1923.	*Due April 1 1919 to Oct. 1 1923.*
Consolidated Traction Co.	Morningside Electric St. Ry

Claims for Rentals.—See V. 115, p. 760.

Valuation.—In March 1918 the Public Service Commission appointed a committee to ascertain the physical valuation of the co.'s properties and to recommend fare rates which will yield it a fair return on its investment. In Aug. 1918, under orders from the P. S. Comm., the receivers appointed a board of three (A. J. Kelly, Henry P. Haas and J. W. Cree) to make the valuation. V. 107, p. 697. According to the report to the P. S. Comm. in Aug. 1919, physical value of the co. in the opinion of engineers for the city is $48,000,000, and in the opinion of engineers for the co. either $60,889,804 or $70,120,804. V. 109, p. 776, 1367. In March 1920 the P. S. Comm. fixed $62,500,000 as the value of the co.'s property, this being

a compromise between the above mentioned valuations. V. 110, p. 1290 The city, however, carried an appeal to the Superior Court of Penna., but this was withdrawn by agreement.

ORGANIZATION.—This was formerly the Southern Traction Co., but in accordance with the authority vested in it by the terms of its charter, the directors of the Southern Traction Co. on Dec. 30 1901 voted to change the name of the company to the Pittsburgh Rys. Co. The Philadelphia Co. had previously acquired all the stock, com. and pref., of the Southern Traction, in accordance with the terms in V. 73, p. 1112.

The Southern Traction Co. was chartered in 1900 to take over, extend and operate the West End Traction lines, which were purchased in Aug. 1900 for $4,500,000.

Leases the Pittsburgh & Castle Shannon RR. for 99 years, rental being $15,000 per annum. See V. 81, p. 778.

On Oct. 22 1917 the Market Street Elevated Pass. Ry., the Union Traction Co. and the Philadelphia Traction Co. appealed to the U. S. Dist. Court for restitution of $73,768 and interest collected from them in the years 1911 and 1912.

V. 107, p. 402. Compare V. 106, p. 2451. On Nov. 20 1918 a ruling was handed down by Common Pleas Court No. 3 (and in Feb. 1919 affirmed by the Pennsylvania Supreme Court) under which the Phila. Rapid Transit Co. is held responsible under the terms of the several leases for the payment to the Govt. of the income-excess profits taxes of the following leased line corporations: Philadelphia Trac. Co., Germantown Pass. Ry. Co., 13th & 15th Streets Pass. Ry. Co., Philadelphia City Pass. R. R. Co., Union Trac. Co., Ridge Ave. Pass. Ry Co., Frankford & Southwark Philadelphia City Pass. Ry., Fairmount Park & Haddington Pass. Ry. Co., Citizens' Pass. Ry. Co. and the Hestonville Mantua & Fairmount Pass. RR. Co. On the other hand, however, it was ruled that the following companies must assume liability for their Federal taxes: Continental Pass. Ry. Co., Philadelphia & Darby Ry. Co and Green & Coates Streets Phila. Pass. Ry. Co. V. 107, p. 2009; V 108, p. 785.

Validity of Rentals Upheld.—In Dec. 1920 the Superior Court of Penna. handed down a decision denying the order of the P. S. Comm. requiring the underlying companies to file answers to averments made by the city and two local business men's associations with regard to rentals of the underlying companies. V. 111, p. 2521; V. 112, p. 163. The city, the P. S. Comm. and business associations appealed, and on July 1 1921 the Penna. Supreme Court reversed the decision of the Superior Court but only on a technicality. The Supreme Court held that the case should not have gone to the Superior Court; but maintained that the P. S. Comm. had no right to attack rental payments For details see V. 113, p. 183, 293.

Split in Directorate.—See V. 111, p. 389; also V. 114, p. 522, 627, 739, 1181

Property Valuation.—On Apr. 30 1924 the Pa. Supreme Court refused to allow the City of Phila. to appeal against the decision of the Superior Court in upholding the finding of the Pa. P. S. Comm. in the P. R. T. Co. valuation case. The P. S. Comm. in June 1923 had found the value of the co.'s property to be substantially upwards of $290,000,000. V. 118, p. 2305.

Stockholders on March 18 1925 approved an issue of $3,000,000 pref. stock. Compare V. 120, p. 331.

On Aug. 19 1925, a tri-state bus line between Philadelphia and New York was placed in operation by the People's Rapid Transit Co. a subsidiary of the Philadelphia Rapid Transit Co. V. 121, p. 1103.

For contemplated issue of additional Preferred stock to finance extension of the lines of the company in the Sesqui-Centennial area, &c. See V. 121, p. 1349.

UNITED RAILWAYS & ELECTRIC CO. OF BALTIMORE.

ORGANIZATION.—Incorporated at Annapolis March 4 1899; comprises through consolidations the following passenger railways in Baltimore City and Baltimore, Anne Arundel and Howard counties, Maryland:

Baltimore Catonsville & Ellicotts Mills Passenger RR.	Central Railway Co.
Baltimore City Passenger Ry. Co.	Gwynn's Falls Railway of Baltimore City.
Baltimore Consolidated Ry. Co.	Maryland Traction.
Baltimore & Curtis Bay Ry.	Pimlico & Pikesville RR.
Balt. Gardensville & Belair Elec. Ry.	Shore Line Electric Ry.
Baltimore & Northern Elec. Ry. Co.	Walbrook Gwynn-Oak & Powhatan

Acquisition & Lease of Maryland Electric Railways.—Early in 1924 the co. acquired all the common stock of the Maryland Electric Rys. (stock so acquired is to be pledged under the mtge. of the United Rys. & Elec. Co.) which had recently consolidated with the Baltimore Halethorpe & Elkridge Ry. and Baltimore Sparrows Point & Chesapeake Ry., which had formerly been leased to the United Rys. & Elec. Co. The co. thereupon entered into a lease of the properties of the consolidated co. for a term of 999 years. Under the terms of the lease the United Rys. & Elec. Co. will pay an unconditional annual rental sufficient to cover maintenance, insurance, taxes, interest, and other charges, and a sum of not less than 2% per annum of outstanding Series "A" bonds of the Maryland Elec. Rys. to cover sinking fund and a fund for improvements, depreciation and obsolescence. For further details see description of the Maryland Electric Rys. below.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Miles of track, 413; serviceable cars, 1,927; gauge, 5 ft. 4½ in. Rails, 60-lb. to 129-lb. T and girder.

Power Contract.—In Feb. 1911 entered into a 15-year contract with Pennsylvania Water & Power Co. for supplying power in conjunction with United Railways Co. for operation of cars. V. 92, p. 467. Also see below.

Sale of Power House—Contract, &c.—On Jan. 12 1921 entered into a perpetual power contract with the Consol. Gas, Elec. Lt. & Power Co. of Balto. The transaction involved the sale of the Railways, Pratt St. power house to the Gas Co. for $4,000,000. (Transferred on May 24 1921.) V. 112, p. 373.

Favorable Tax Decision.—On June 29 1909 the Court of Appeals of Maryland held that the park tax of 9% on gross earnings of lines within city limits was intended to be in lieu of all other taxes, and that no further tax on the intangible property can be levied without express legislative authority. The easements in 14 miles of turnpikes in annexed districts were held to be taxable. V. 89, p. 44.

In April 1913 Judge Bond in the City Court at Baltimore decided that the company must pay cost of repaving streets between tracks and 2 ft. on either side. See V. 96, p. 1090. On Aug. 5 1913, the Court of Appeals of Maryland reversed the ruling and unanimously held that company's obligation with respect to the track area was to repair and not to re-pave. In Feb. 1916 the same court again held that co. is required merely to keep its tracks in repair.

Fares.—Effective June 1 1924, was auth. by the Md. P. S. Comm. to increase cash fares from 7 to 8 cents, with two tickets for 15 cents. V. 118, p. 2706. See also V. 119, p. 581

In May 1922 holders of the 1st & cons. mtge. 4% bonds were offered the privilege of exchanging the 4% coupon sheets on a limited portion of their holdings for 6% coupon sheets, upon the payment of $250 per $1,000 bond. Up to April 1 1924 $2,684,000 bonds had taken advantage of this offer. V. 114, p. 2361, 2580; V. 115, p. 184.

A Significant Record

COLUMBIA SYSTEM

Stability of income—long a characteristic of utility companies—is an influential factor in popularizing them as an outlet for investment funds. Such stability is signally emphasized in the following statement of gross earnings for the constituent companies of

COLUMBIA SYSTEM

1913	$7,345,062	1917	$10,861,330	1921	$15,232,963

The fact that these earnings, which show a consistent increase from year to year, are derived from electrical, gas, railway and other sources lends an element of diversification to an established earning power.

On Aug. 10 1920, however, this question was submitted to a referendum vote and defeated. V. 111, p. 692, 1565. Compare V. 110, p. 2387; V. 111, p. 389.

The company on April 1 1920 paid 1¾%, but subsequent int. payments are being paid at the old rate of 1½% quarterly. The city has brought suit to compel the company to pay back into the interest fund the $72,000 paid out in int. over the regular rate on April 1 1920. V. 111, p. 1182, 1277, 1565. Foreclosure Proceedings.—The Cinc. & Ham. Elec. 1st mtge. 6s being in default of prin. and int. from July 1 1918, the trustee has brought suit in foreclosure jointly with the trustee of the overlapping mtge. securing the Southern Ohio Trac. 1st cons. 5s upon which the May 1 1919 int. is in default. On Sept. 28 1920 a decision was rendered in effect that neither Southern Ohio Trac. mtge. nor underlying issues cover (1) the power house, (2) the terminal from College Hill into Cincinnati; but only main line from Dayton to College Hill. Neither do the mtges. cover equipment. Mortgagors can, if they elect, have a receiver appointed for the property covered by mtge. This leaves the co. in complete possession of power house, terminal and rolling stock. A rehearing on error was asked. V. 111, p. 1565. In Dec. 1920 the court ruled that transmission lines are a part of the power house and are not covered by mtge. For further rulings of the Court regarding liens, &c., see V. 111, p. 2423. In May 1921, however, the Court of Appeals at Cincinnati, it was reported, handed down a decision holding that the underlying bondholders are entitled to have their rights restored to the condition they were in when the system was operated as the Cinc. Dayton & Toledo Trac. Co., or to have such an interest in the new power house as would equal the cost of such restoration. V. 112, p. 1977. A final appeal was taken to the Supreme Court. See also V. 113, p. 2078. For statement regarding final decree see V. 113, p. 2613. In Oct. 1925 the Court of Appeals at Hamilton, Ohio, approved the sale of the traction line from Hamilton to Cincinnati. The power house at Hamilton was also to be sold. V. 121, p. 2037.

Defaults.—As of Oct. 1 1921 the co. was in default of principal and int. on the Southern Ohio Trac. 1st cons. 5s, the Cinc. & Hamilton Elec. 1st 6s and the Dayton Trac. Co. 1st 5s. Regarding the $250,000 5% bonds of the Hamilton & Lindenwald Elec. Trans., due July 1 1922, W. E. Hutton & Co. in July 1922 stated: "These bonds are 1st mtge. on Hamilton, O., city lines, on which the Southern Ohio Trac. Co. bonds are 2d mtge. and Cin. & Dayton Trac. Co. are 3d mtge. The entire matter now tied up in court, nothing can be done until court hands down decision." V. 115, p. 307.

Stock.—The stockholders on Feb. 19 1924 authorized the creation of two new classes of stock, prior pref. and partic. pref., into which the $4,465,900 6% pref. stock and its accumulation of unpaid divs., whether represented by the $310,040 scrip or not, might be converted (all now converted). The partic. pref. stock is entitled to cumul. dividends of 4% for the first year following its date of issuance, April 1 1923; 5% for the second year, 6% for the third year and 7% for the fourth and each subsequent year. It is also entitled to an additional 1% in any cal. year wherein the total cash dividends paid on the com. stock shall exceed $6 per share. Is red. at 105. Prior pref. is red. at 110.

All stockholders of record July 10 1925 were given the right to subscribe for additional common stock at $100 per share, to the extent of 30% of the number of shares of all classes held by them. V. 121, p. 196, 327.

Chancellor Wolcott in the Chancery Court at Wilmington, Del., in Nov. 1923 handed down an opinion ruling that the amendment to the certificate of incorporation of the co. is null and void and without legal effect in so far as it relates to the cancellation of accum. divs. on the old pref. stock. Under the ruling the co. will not be permitted to pay any divs. whatever on its 200,000 shares of com. stock until it pays off 24% accumulated cash divs. on the old pref. stock. In his opinion, the Chancellor refused the plea of a group of the co.'s stockholders for an injunction to restrain the co. from paying any divs. on its new pref. or com. stock out of its funds now on hand or any future profits until it paid off the accum. divs. V. 118, p. 2435. In Jan. 1925 A. B. Leach & Co., N. Y. and Chicago, and Pearsons-Taft Co., Chicago, *offered* $1,000,000 7% prior pref. at $92 per share, to yield over 7.60%. V. 120, p. 207.

Bonds.—Collateral trust 5s are redeemable at 102.

The Strength of Horses

always has been the basis for measuring electrical energy. More than 250,000 horse-power is available to homes and industries of Northern Illinois through this Company's own generating and distributing system. In addition, this Company's inter-connections with the great electric systems of the Chicago district make available to its customers, power resources which the late Dr. Steinmetz described as "the greatest pool of power in the world,"

DES MOINES POWER STATION
Located 7 miles below Des Moines, Ia., at the confluence of the Des Moines and Raccoon rivers.

TECUMSEH POWER STATION
Located 5 miles east of Topeka, Kansas, on the Kansas river.

SPEAKING OF MUSCLE SHOALS

The first units of generating plants at Des Moines, Iowa, and Topeka, Kansas, have been completed by Illinois Power and Light Corporation subsidiaries.

The combined ultimate capacity of these plants is 274,600 hp., or 14,600 hp. greater than the installed capacity of famous Muscle Shoals.

These huge generating stations are designed to meet the present and future needs of rapidly growing sections in the Central West.

The Tecumseh plant is serving Atchison, Topeka and other thriving cities and towns in Northeastern Kansas. The Des Moines plant, at Des Moines, is strategically located to meet the demands of that city and other prosperous and growing communities in Central Iowa. Adequate transmission lines connect both plants with scores of distribution systems.

The erection of these modern generation stations reflects the steady growth of our properties; further emphasized during the period between 1916 and 1925 by an increase in gross earnings from $12,900,319 to $30,008,977—statement of August 1 1925—and in electric meters from 93,738 to 210,010, in gas meters from 53,062 to 74,368 and combined kilowatts generated from 219,626,000 to 476,594,000

ILLINOIS POWER AND LIGHT CORPORATION

Executive Offices: 230 South La Salle St., CHICAGO, ILL.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The power and light properties of the corporation comprise electric generating stations with an aggregate capacity of 265,046 h.p. installed and 123,300 h.p. additional under construction, and distributing systems furnishing electricity without competition to over 223,680 customers.

The gas properties have an installed daily generating capacity of over 25,925,000 cu. ft. of artificial gas and distributing systems serving over 78,700 customers.

The city railway properties, comprising over 235 miles of track, serve the cities of Danville, Champaign, Urbana, Decatur, Peoria (76,121), Cairo, Quincy (35,978), Bloomington, Galesburg, Ottawa, Illinois; Atchison, Topeka and Wichita (72,217), Kansas, and Oskaloosa, Iowa.

The electric trunk line railroad, comprising over 550 miles of main line, modern, standard-gauge railroad, is equipped with automatic block signal systems, repair shops, car barns and 1,223 freight and passenger cars. This system connects the cities of Peoria, Springfield, Bloomington, Danville, Urbana, Champaign and Decatur with Edwardsville, Granite City, Madison, Venice and St. Louis, entering St. Louis over a steel toll bridge owned by the corporation in fee, into its own terminal in the heart of St. Louis. Another trunk line connects the cities of Joliet, Ottawa, Marseilles, Peru and Princeton. A subsidiary, the St. Louis Ry. and Eastern RR., operates a steam road of 45 miles, which enters East St. Louis and exchanges traffic with the St. Louis Belt System.

Most of the principal lighting *franchises* are unlimited as to time. The electric railroad, except in municipalities, is almost entirely on private right-of-way.

New Power Project.—Co. is building a new steam generating power plant at Tecumseh, Kan., to be completed in 1925, with an initial capacity of 20,100 h.p.

Exchange of Pref. Stocks for Stocks of Constituent Cos.—For offers made to stockholders of Illinois Traction Co. and the Bloomington & Normal Ry. & Lt. Co., Western Rys. & Lt. Co. and Southern Illinois Lt. & Power Corp., see under separate captions in "Chronicle" of July 7 1923, page 86.

Fare Increase.—For fare increase approved on July 13 1925 by the City Council of Quincy, Ill., see V. 121, p. 1101.

Bus Service.—In Oct. 1925 it was reported that a bus system would replace the electric line between Galesburg-Abingdon, Ill. V. 121, p. 1908.

MISSISSIPPI VALLEY RAILWAY & POWER CO.

ORGANIZATION.—Incorp. in Delaware July 1 1915 to take over the Rock Island Southern Ry. the Aledo Terminal Ry., the Rock Island Alexis Ry. and the Edwards River Power Co. (all formerly operated by the Rock Island Southern Ry.), as per plan of readjustment in V. 101, p. 449. Under the plan acquired all the com. and pref. stocks of these companies and $1,341,200 (out of $1,873,200) 1st mtge. bonds of the Rock Island Southern Ry. and $415,000 Aledo Terminal Ry. 1st mtge. bonds.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Runs north from Monmouth to a connection with the Chic. Rock Island & Pac. Ry. at Monmouth Jct., 31 miles, and thence operating into city of Rock Island, a distance of 22 miles, over line leased for 25 years from C. R. I. & P. Ry., which has been electrified. Also 7 miles from Gilchrist Jct. to Aledo. Total miles of single track operated, 66.29. Has connections for Davenport, Ia., Moline and Galesburg, Ill. 10 pass., 243 freight, 2 express and freight, and 7 work cars; 7 steam locomotives. 75-85-lb. rails. Also operates the power house located at Edwards River.

Default—Interest Funding Plan.—Being in need of at least $150,000 for the rehabilitation of the Rock Island Southern Ry. property, and finding it inadvisable to sell additional prior lien bonds in view of the unsettled financial situation, the Miss. Valley Ry. & Pow. Co. entered into an agreement with the holders of the $532,000 Rock Island Southern Ry. bonds not owned by which the time of payment of interest on those bonds and the bonds held by the M. V. R. & P. Co. will be extended for 3 years. The M. V. R. & P. Co. being without funds to pay the interest due July 1 1917 on its 1st & ref. 5% bonds, holders of said bonds have been requested to exchange their coupons for the 3 years beginning July 1 1917 for bonds of the same issue, par for par. The unissued prior lien bonds are to be canceled. For further details see V. 105, p. 607.

Sale of Collateral.—The interest and principal due June 1 1917 on the $266,000 coll. trust notes of the R. I. Southern Ry. remaining unpaid, the $532,000 1st mtge. 5% bonds of that company pledged as collateral were sold at foreclosure Aug. 27 1917, presumably to the committee for the noteholders. Compare V. 105, p. 607.

Liquidation of the Company.—We were advised that the holdings of the company probably will be disposed of and the company dissolved in the course of 1926. V. 121, p. 1789.

Sub. Co. Receivership.—In April 1920, Judge Martin J. Wade appointed C. N. Abbott and C. H. Bacon receivers for the Rock Island Southern Ry. V. 110, p. 1642.

CHICAGO SURFACE LINES.

Under the title of Chicago Surface Lines, the properties of the Chicago Railways Co. and the Chicago City Railways Co. are now being operated as a single system under the control of a joint board of operation in accordance with an agreement between the two companies and the unification ordinance which became effective Feb. 1 1914. While under the terms of this ordinance and the agreement the ownership of the properties remains entirely separate and distinct, the combined earnings are divided upon an agreed basis. For the two years ending Jan. 31 1916 the Chicago Railways Co. received as its share 59% of the income remaining after the payment of all operating expenses, including taxes and maintenance, the other 41% of the income going to the Chicago City Ry. Co., including the Calumet & South Chicago Ry. and the Southern Street Ry., and, beginning with Feb. 1 1916 and until the expiration of its franchise in 1927, the Chicago Railways Co. will receive 60% of the so-called "residue receipts," and the Chicago City Ry. (including the Calumet & South Chicago and the Southern Street Ry.) 40%. The plan provided for a 5-cent fare throughout the city on surface lines, also through routing of cars from one division of the city to another. See details of the ordinance and the agreement for unified operations under date of Dec. 1 1913 in V. 98, p. 1693. An order permitting the State Attorney to file quo warranto proceedings to question the legality of unification ordinance was denied in March 1915. V. 100, p. 1078.

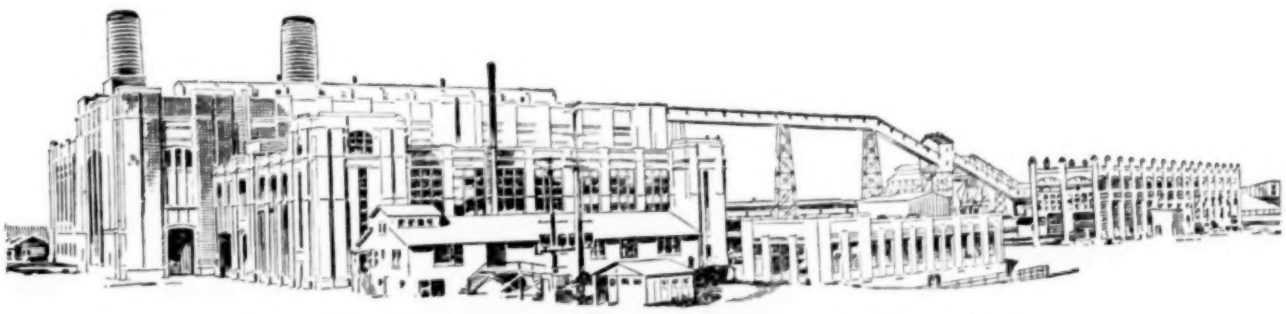
GROWING
with CHICAGO

RAPID growth of the City of Chicago, combined with ever-increasing demand for electric light and power for the City's homes, industries and transportation systems has resulted in rapid growth of the Commonwealth Edison Company.

In the past 20 years, the number of customers has increased 24 times. Output has increased 27.5 times with an increase in capitalization of only 6.5 times.

The Company's customers now total more than 785,000 including Chicago's surface and elevated railroad lines and many of the City's largest industrial concerns.

The new Crawford Avenue power house, now in operation, will have an eventual capacity of 750,000 kilowatts making it one of the world's largest steam-operated central stations. The Company's generating and storage-battery capacity is now 900,700 kilowatts.



Stockholders total more than 43,000. More than 85% of these investors are customers of the Company—reflecting Chicago's growing appreciation of the Company's dependable service.

Dividends have been paid by the Company and its principal predecessor without interruption for 35 years. Since 1913 the rate has been $8 a year.

In addition stockholders from time to time are given an opportunity to subscribe on an advantageous basis to new issues of stocks.

(1) CHICAGO CITY RAILWAY.

Unified Operation of Surface Lines.—See "Chicago Surface Lines" for details of unification ordinance under which the lines of this company are operated jointly with those of the Chicago Railways Co. as a single system under the control of a joint Board of Operation

ORGANIZATION.—Incorporated in Feb. 1859, and has extensive surface road privileges in the south division of Chicago. Has a contract expiring Jan. 31 1927 with the Commonwealth-Edison Co., for the supply of its entire power requirements. The railway has abandoned its producing plants but retains its distributing plants.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—(Incl. Southern St. Ry.). Co. owns 352.78 miles of single track, all now operated by electricity. System covers the South Side of Chicago, extending from the centre of the business district south to 79th St. and between the South Branch of the Chicago River and the Lake.

Ordinances and Franchises.—On Feb. 4 1907 the City Council passed ordinances providing for a settlement of the franchise question. These ordinances were approved at the city election on April 2 1907 and formally accepted by the company's board of directors on April 15 1907. Suit to set aside franchise was dismissed in April 1912. V. 94, p. 1118. An extended outline of these ordinances, one to the Chicago City Railway Co., and covering the lines operated by that company, and the other to the Chicago Rys. Co., and covering the lines of the former Chicago Union Traction Co. (now the Chicago Railways Co.), was given in V. 84, p. 1123. The value of the tangible and intangible property of the Chicago City Ry. at date of the ordinances was fixed at $21,000,000. The city or any company authorized by it is given the right on Feb. 1 or Aug. 1 of any year, on six months' notice, to purchase the entire property of the two systems, or either of them, at their value at date of ordinance, plus "the cost of rehabilitation and extensions, including fair allowances for construction, profit and brokerage." But if the properties are acquired for operation by a private corporation, for its own profit, the purchase price is to be increased 20% —barring the case of a private company which might be willing to turn over to the city all profits above 5% on the cost of the investment. The companies are limited during their operation to an interest return of 5% upon the agreed value plus the cost of rehabilitation and extensions. All net profits above this are to be divided on the basis of 55% to the city and 45% to the companies, but a deficit in any year is to be made good out of the profits of subsequent years. After April 15 1910 the companies are required to set aside 6% of the gross receipts for maintenance and repairs and an additional 8% of the gross receipts to cover renewals and depreciation. Whatever portion of the two funds is not used remains in the funds and passes to the city or its licensee upon purchase. But if the two funds are not sufficient for the purposes named, the companies are obligated to supply additional funds. The franchises granted by the ordinances run until Feb. 1 1927. Purchase price of the property Jan. 31 1925, $55,753,222.

On Jan. 29 1912 City Council passed an ordinance providing for the acquisition by Chicago City Ry. of city lines of the Chicago & Southern Trac. Co. V. 94, p. 349, 629. The latter was sold at foreclosure in Feb. 1912. The lines outside the city were taken over by the Chic. & Interurban Ry.

Decision as to Regulations.—See "Chicago Surface Lines."

A very extended outline of the same was printed in the "Chronicle" of May 11 1907, pages 1123, 1124 and 1125, to which the reader is referred for detailed information.

The ordinance for the Chicago Rys. Co. provides that the valuation of the properties acquired shall be deemed and considered to be $29,000,000 (the value fixed by a board of expert engineers acting for the city) plus $1,779,875 for expenditures from the date of the valuation on June 30 1906 to Feb. 1 1907, making total valuation of properties as recognized by ordinance $30,779,875 as of Feb. 1 1907. With the expenditures already made, the valuation of road, equipment and franchises on Jan. 31 1925 was computed at $93,986,705.

For further provisions of ordinance see "Electric Railway" Supplement of April 26 1924.

Control by Trustees.—The trust indenture securing the participation certificates provides that until Aug. 1 1912 and to the full extent thereafter which may be permitted by law until all of the consolidated mortgage bonds of the company shall be fully paid and discharged, the directors of the company shall be elected by trustees, now consisting of Messrs. Harrison B. Riley, Halman G. Pettibone, Abel Davis, Frank G. Gardner and Henry J. Tansley, and provision is made in the trust deed securing the first mtge. bonds for the appointment of a permanent finance committee, now composed of Messrs. Henry A. Blair, B. A. Eckhart and F. H. Rawson, Chicago.

Acquisition of Chicago Consolidated Traction Properties.—On Dec. 27 1910 Judge Grosscup confirmed the sale of the Chicago Consol. Trac. Co. and its eight underlying companies on Nov. 30 1910 to Andrew Cooke and the sale by the latter of all properties *within* the city limits to the Chicago Railways Co. (V. 91, p. 945, 1253, 1511), pursuant to an ordinance passed Oct. 10 1910 (placing valuation at $4,021,982), like in tenor, amendatory and supplemental to ordinance of Feb. 11 1907 (V. 91, p. 1025, 1159). See reorganization plan, V. 90, p. 1613; V. 91, p. 37. The lines *outside* the city were acquired by the County Traction Co. (now the Chicago & West Towns Ry.), which has no connection with the Chicago Railways Co. On Nov. 1 1910 a deposit agreement was entered into by the holders of the securities of the Chicago Consolidated Traction and its subsidiaries, providing for the exchange of the said securities for Chicago Rys. Co. purchase money 4% to 5% bonds and adjustment income 4% bonds, both dated Jan. 1 1911 and maturing Feb. 1 1927. For description of bonds and terms of exchange, see V. 91, p. 1384, and compare V. 90, p. 1613; V. 91, p. 214.

Settlement of Yerkes Suit.—In April 1914 the company arranged a settlement of the suit brought by the Yerkes Estate on the guaranty of the bonds of the Chicago Consol. Trac. Co. by the Union Trac. Co. V. 98, p. 1155.

Committee Formed—Seeks Payment of Back Divs.—Holders of Series 1 partic. ctfs. on March 26 1923 elected a protective committee in an effort to obtain unpaid div. on the certifs. (see below). The committee consists of: Jackson S. Stone, W. F. Prindel, Harry C. Edmonds, Robt. J. Dunham and Orville E. Babcock. See V. 116, p. 1410. Compare V. 116, p. 1275.

Suit Seeking Payment of Divs. Dismissed.—In June 1923 holders of Series I certifs. filed suit against the co. in the U. S. Dist. Court at Chicago seeking payment of divs. at the annual rate of $8 a share with accruals on that basis from Aug. 1 1917. The city of Chicago and Martin J. O'Brien, City Comptroller, were made parties to the suit because the latter failed, it is alleged, to certify to bonds to which the co. was entitled for extensions of its street-car system as required by ordinances. V. 116, p. 2515; V. 117, p. 2211. On March 22 1924 this suit was decided in favor of the company in the U. S. Dist. Court. This decision was affirmed by U. S. Court of Appeals Jan. 14 1925. V. 118, p. 1664. The U. S. Supreme Court also ruled against the certif. holders. V. 120, p. 2145.

Municipal Ownership Defeated.—See V. 120, p. 1880 Compare V. 120, p. 1456.

(5) The creation of a new mortgage, subject only to $4,635,000 underlying bonds outstanding, to provide, among other things, for refunding such underlying bods, of which more than 50% mature in 1927, and for new capital requirements from time to time.

Mtge. and the organization of a new company, which will acquire, through foreclosure and receiver's sales and otherwise, the following property and assets:

(1) The street railway system and franchises which are now subject to the Denver City Tramway Co. 1st & Ref. Sinking Fund Mtge. and to the Denver & Northwestern Ry. 1st & Coll. Mtge.—to be acquired subject to the respective liens of the mortgages securing the underlying bonds, which are not being disturbed in the reorganization, which underlying bonds are to be assumed by the new company;

(5) All real estate now owned by Cons. Secur. & Investing Co. the title to which may be vested in a subsid. corporation.

In regard to items (4) and (5) the plan contemplates that the indenture securing the 3-year 7% coll. trust notes shall be foreclosed, or that the collateral held thereunder shall be sold, and that the noteholders' protective committee shall cause the $1,370,000 Denver City Tramway Co. 1st & ref. s. f. mtge. 5% g. bonds which are now part of the collateral to be deposited under the plan, and shall likewise cause items (4) and (5) to be conveyed and transferred by Consol. Secur. & Investing Co. to the new company, or, in the case of the real estate, to a subsidiary corporation.

Trust notes shall be foreclosed or that the collateral held thereunder shall be sold and that the noteholders protective committee shall cause the $1,370,000 D. C. T. 1st & Ref. S. F. M. 5s, which are now a part of the collateral, to be deposited under the plan and also cause the $1,000,000 stock and $496,500 notes of Denver & Intermountain RR. now owned by the Consol. Securities & Investing Co. to be conveyed to the new company, or in the case of the real estate to a subsidiary company. **b** Holders of stock and certificates of deposit for stock of the companies will be required to pay 20% of the payments on assenting to the plan (to be returned if the plan shall not be declared operative), and the balance as and when called for by the joint reorganization committee after the plan shall have been declared operative.

The reorganization committee reserves the right to issue stock scrip to cover fractions of one share of new Common stock to which holders of stock of the Denver & Northwestern Ry. or the Denver Tramway Co., or certificates of deposit therefor, may become entitled under the plan.

The plan makes no provision for any holders of stock of the Denver & Northwestern Ry. or of the Denver Tramway Co. who do not deposit their stock under the plan and make the payments above referred to. Any new stock which would be deliverable under the plan to such holders, had they participated therein, may be sold by the joint reorganization committee for the purposes of the reorganization.

Cash Requirements of the Plan.—The plan does not contemplate any immediate sale of bonds by the new company to provide cash, as it is estimated that the cash in the hands of the receiver and the payments required of the stockholders under the terms of the plan, taken as a whole, will suffice for operations until the new company takes over the property, and for the liquidation of the obligations and expenses of the receivership and other claims, and for the expenses of the reorganization and of carrying out this plan, and will leave the new company a balance estimated at not less than $750,000 for working capital and for capital expenditures contemplated for 1925 and 1926.

This estimate does not include any provision for any cash payment on any of the Denver City Tramway Co. 1st & Ref. Sinking Fund Mtge. 25-Year 5% Gold bonds, or of the Denver & Northwestern Ry. 1st & Coll. Mtge. 30-Year 5% Gold bonds, or of the Denver Tramway Co. 3-Year 7% Collateral Trust Gold notes, which may not be deposited under the plan.

MISSOURI

UNITED RAILWAYS CO. OF ST. LOUIS.

Is controlled by North American Co. of New York.

Receivership & Reorganization Plan.—Since April 12 1919 co. has been in the hands of a receiver. V. 108, p. 1823, 2331. A plan of reorganization dated Oct. 1 1924, was adopted by the reorganization committee and approved by a number of the various security holders' protective committees. For the various committees and details of the plan we refer to "Public Utility Compendium" of May 2 1925 and V. 119, p. 2531.

ORGANIZATION.—Incorporated in Missouri on March 11 1898 as the Central Traction Co., but changed its name to above on July 10 1899. On Dec. 31 1906 absorbed the St. Louis & Suburban Ry., giving its pref. stock, share for share, for the stock of that company. The United Rys. guarantees the $4,500,000 gen. mtge. bonds of the St. L. & Sub. Ry. See V. 83, p. 39; V. 84, p. 105. In 1908 acquired a controlling interest in the Missouri Electric Co., successor to the St. Louis St. Charles & Western RR., which was sold at foreclosure in July 1905. For receivership and reorganization see above.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The United Railways Co. comprises all the street car lines in operation in St. Louis. On Dec. 31 1923 owned total of 463.18 miles of track (including the St. Louis & Suburban), of which 347.62 miles are in the city and 115.56 miles are county track. Has 1,638 passenger cars, 4 special cars, 2 express cars, 7 snowplows and 35 snow sweepers, 3 electric locomotives and 165 service cars of various kinds. Total, 1,854. The company was originally leased to the St. Louis Transit Co., but under a readjustment arranged in Oct. 1904 by Messrs. Brown Bros. & Co. (V. 79, p. 1333), the lease was canceled and the $17,264,300 stock of that company nearly all exchanged for voting trustees' certificates for common stock of the United Railways Co. on the basis of $500 Transit stock for $200 voting trustees' certificates. Voting trust has expired and com. stock has been issued for trust certificates.

Under this plan the $20,000,000 refund. and impt. mtge. bonds of the St. Louis Transit Co., of which $8,000,000 has been issued, were cancelled, and in their place the same company issued $10,000,000 of 5% improvement bonds guar. by the United Rys. Co. of St. Louis, this guaranty being secured by a mortgage on all of that company's property next in rank to that of its general mtge. These improvement bonds are now the only outstanding security of the Transit Co.

Power.—Power is purchased from the Union Electric Light & Power Co. (successor to the Mississippi River Power Distributing Co.). See V. 111, p. 1662; also V. 112, p. 2529.

Valuation, &c.—The Missouri P. S. Commission in a decision handed down on June 4 1923, found the value of all property of the compayn, exclusive of its subsidiary, the Missouri Electric RR. Co., as of Jan. 1 1919 to be $52,838,110, and fixed the value of the Missouri Electric RR. Co. as of Jan. 1 1919 at $781,949. The valuation fixed by the Commission was accepted by all interested.

***Decisions.*—On Feb. 26 1917 the Missouri Supreme Court held that the P. S. Comm. had no auth. to compel the company to extend its tracks on streets on which it held no franchises. Also held void two sections of the city charter conferring upon the city the power to regulate its public utilities.**

Fare Situation.—See "Electric Railway" Supplement of Apr. 26 1924.

City Purchase Plan.—See V. 118, p. 2181.

Bus Operations.—See V. 119, p. 1627.

have been canceled, making the total authorized issue now $42,000,000, of which $9,768,000 are reserved for the retirement of underlying liens. In Aug. 1919 $1,932,000 bonds of this issue which were owned by the company were ordered canceled by the Federal Court. V. 111, p. 787. The bonds are secured by all the stocks of the constituent companies, and by direct mortgage lien upon their property and franchises. In 1903 the general mortgage bonds were listed on the New York and Philadelphia stock exchanges (see V. 76, p. 980; V. 89, p. 995), and in April 1906 the St. Louis Transit Co. improvement bonds were listed on the New York Stock Excb.

Interest Advanced by Protective Committees.—The Jan. 1 1924 interest on the first gen. mtge. 4s was advanced by the three protective committees for this issue. V. 118, p. 204. Up to May 1925 the committee had not yet been reimbursed by the receiver. The July 1 1924 coupon was paid by the receiver on Dec. 31 1924, together with interest on each coupon at 6% per annum. The committee for the St. Louis Transit Co. 20-year 5% improvement bonds advanced to such of its depositors as so desired the amount of interest due and in default April 1 1924 on those bonds, and announcement has been made that, should Oct. 1 1924 interest be defaulted, the committee will advance same to depositing bondholders. 2d Mtge. Gold Bonds and "Other Promissory Notes."—Offers heretofore made to the 2d mtge. gold bonds committee and to a large majority of holders of the so-called "other promissory notes" were rejected and the litigation which followed resulted adversely to the claims of these interests. The reorganization committee shall have the right, in its discretion, to negotiate or arrange with any parties for the readjustment or acquisition of the 2d mtge. gold bonds or other promissory notes, or any of them, but shall be under no obligation to do so.

Tort Judgments.—The holders of a large number of judgments against the old company for personal injury and property damages intervened in the receivership proceedings, contending that such judgments were a charge on the property prior to the 1st mtge. gold bonds, collateral gold notes and secured promissory notes and attacking the validity of the bonds and notes. The great majority of these judgments were obtained and are held by residents of Greater Kansas City as the result of death or personal injury occasioned by the old company in its operations. The reorganization committee, believing it to be to the best interests of the holders of 1st mtge. gold bonds, collateral gold notes and secured promissory notes, has arranged on behalf of the bondholders and noteholders to purchase these tort judgments and similar claims subsequently reduced to judgment. Payment therefor is to be made on the basis provided in the plan, from funds and (or) bonds applicable to the 1st mtge. gold bonds, collateral gold notes and secured promissory notes, the reorganization committee being hereby constituted by the holders of the bonds and notes their representative with authority to receive such funds and (or) bonds, and to apply the same to such purchase. The holders of tort judgments are not participants in the plan, but are to assign their judgments as directed by the purchasers upon payment of the agreed consideration therefor. This arrangement has been accepted by substantially all the holders of said judgments.

Other Debts or Claims.—The reorganization committee shall have the right to negotiate or arrange for the readjustment, acquisition or settlement of claims for taxes, viaduct construction, materials furnished and such other debts, obligations or claims, whether arising as a result of operations or under franchises or otherwise, as may not be included in the foregoing itemization and (or) may not be disposed of by the receivers.

Cash Requirements and Provision Therefor.

The amount of cash estimated as required to carry out plan is as follows:	
For improvements, betterments and working capital of new company, less amounts required for settlements of claims and liabilities of old company and receivers, payment of expenses of foreclosure and sales and expenses of reorganization, &c. (est.)	$3,650,000
To be paid to holders of 1st mtge. gold bonds, collateral gold notes and secured promissory notes, to be applied by them (through the reorganization committee as their representative) to the purchase of tort judgments (estimated)	1,350,000
Total	$5,000,000
The cash required for the purposes of the plan will, it is estimated, be provided as follows:	
Cash estimated to be available in hands of receivers upon completion of reorganization	$5,000,000

New Company.—The reorganization may be effected through a new corporation, or, if deemed advisable, through one or more corporations, formed or to be formed, which may include the old company. There will be vested in the new company, through a foreclosure of the first mortgage or otherwise, provided the purchase or acquisition is arranged at a price deemed satisfactory to the reorganization committee, title to the street railways, equipment, franchises, securities, rights and other property of the old company and such cash as may be available in reorganization and not otherwise required, with such exceptions and additions as the reorganization committee shall determine.

New Securities.—The bonds and stocks herein provided for may be issued by one company or by two or more companies acquiring the property of the old company, as provided:

First Mortgage Bonds.—The first series (Series A) of such bonds shall not exceed $20,000,000 and bear 6% interest.

Preferred Stock.—The shares will be either without par value, or of the par value of $100 per share. The pref. stock may be issuable in series, will bear dividends not exceeding $7 a share per annum and be red. at not exceeding $107 50 a share. Holders will have the same voting rights as holders of common stock.

Common Stock.—Will be either without par value or of such par value as the reorganization committee shall determine.

Voting Trust.—The reorganization committee shall have power, in its discretion, to create a voting trust or voting trusts for all or any part of the pref. and common stock of the new company, and to cause such stock or any part thereof to be deposited thereunder, for the purpose of providing for representation of public authorities or of holders of any class of stock on the board of directors of the new company or otherwise, such voting trust or trusts to be for such period or periods and to contain such provisions as the reorganization committee in its discretion may prescribe.

Sale of Bonds and Stock.

If the reorganization committee shall determine that it is to the best interests of the new company, or of the parties entitled to receive 1st mtge. bonds of the new company under the plan, the reorganization committee may in its absolute discretion withhold distribution of the new 1st mtge. bonds, or any part thereof, for a period not exceeding 6 months subsequent to completion of the reorganization, and may retain the bonds for such period as agent of the parties otherwise entitled thereto, and may issue in lieu thereof certificates or receipts evidencing proportionate interest in such bonds and (or) the proceeds thereof.

The reorganization committee may at any time during the 6 months period sell or otherwise dispose of the bonds in whole or in part to such party or parties as it may select at such price and upon such terms as it may fix, and shall within a reasonable time thereafter distribute the bonds and (or) proceeds thereof in the hands of the reorganization committee to the holders of such certificates or receipts or to the parties appearing to be entitled thereto as their respective interests may appear; provided, that at least 10 days' notice of the proposed price and terms of any such sale or other disposition of said bonds or any part thereof shall be mailed to the holders of certificates or receipts issued in lieu thereof or to the parties appearing to be entitled thereto, at their addresses if any appearing on the books of the reorganization committee, and any such holder or party may, by notice mailed to the reorganization committee and received by it within 8 days after date of mailing of the notice from the reorganization committee, disapprove such sale or other disposition as concerns such holder or party, in which case the bonds represented by his certificate or receipt or to which he appears entitled shall not be subject to such sale or other disposition; otherwise the reorganization committee shall have full power and authority to make such sale or other disposition.

The reorganization committee may likewise withhold distribution of the preferred and common stock of the new company and sell same as above provided in connection with the bonds.

The reorganization committee shall also have power, apart from the foregoing, to set aside as a separate entity, for sale to employees of the new company and (or) to residents of Greater Kansas City, such number of shares of pref. stock, Series A, not exceeding 20% thereof, and an equal number of shares of common stock, which shares would otherwise be distributable under the plan to the holders of 1st mtge. gold bonds, collateral gold notes and secured promissory notes of the old company, as it may in its discretion determine, and may issue certificates or receipts therefor applicable only to and evidencing proportionate interest in such stock and (or) the proceeds thereof; and may sell said stock or any part thereof, at any time within six months subsequent to such completion of the reorganization, at such price and upon such terms as the reorganization committee may fix; and shall within a reasonable time thereafter distribute ratably to the holders of such certificates or receipts or to the parties appearing entitled thereto the stock and (or) proceeds thereof in the hands of the reorganization committee.

Non-Assenting Holders of Bonds and Notes.—The plan makes no provision for any payments of cash or delivery of bonds or stock to any holder of bonds and (or) notes of the old company of the classes specifically herein provided to be readjusted who does not participate in this plan and assent to the agreement. Any cash, bonds or stock which would have been distributed under the plan to any such non-assenting holders had they participated in the plan may remain unissued or be disposed of for reorganization purposes by the reorganization committee as it may deem advisable in its discretion.

CALIFORNIA

PACIFIC GAS AND ELECTRIC CO.

(*See Map on page* 201.)

ORGANIZATION.—Incorporated in California Oct. 10 1905 as a consolidation. In Oct. 1919 purchased the properties and substantially all of the $10,000,000 capital stock of the Northern California Power Co. Consolikated at $34 per share.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns and operates extensive properties employed in the production and sale of electricity and gas for light, heat and power, about 60% of its revenues being derived from electricity and about 35% from gas. It also owns and operates the entire street railway system of Sacramento, 44 miles of track, and is engaged in the sale of steam for heating and of water for irrigation and domestic purposes, deriving approximately 5% of its revenue from these and other less important activities. All the properties owned in fee except those of the Mt. Shasta Power Corp. and California Telephone & Light Co. (of which the company owns practically the entire outstanding stock) and those leased from the Sierra & San Francisco Power Co. and Yuba River Power Co.

The operations of the company extend into 38 counties of central and northern California, having an area of 59,000 square miles and an estimated present population of over 2,200,000. The business field embraces the important San Francisco Bay section and the fertile Sacramento and San Joqauin valleys. The company serves eight of the twelve largest cities in California.

At the close of 1924 the company operated 27 hydro-electric generating plants having an aggregate installation of 426,239 h. p., four modern steam turbine electric plants with an aggregate installation of 190,349 h. p., also 262 substations and 12,186 miles of transmission and distribution lines with a connected load of 1,367,501 h. p. A new station was opened in July 1925, adding 108,579 h. p. to the total installed capacity, making the total hydro-electric capacity 534,818 h. p.

The gas department includes 17 manufacturing plants with an aggregate capacity of 83,840,000 cubic feet per day and 3,833 miles of mains.

Through purchase of the Northern California Power Co. Consolidated, acquired 585 miles of high-tension lines and 1,985 miles of low-tension lines, a power site on the Pit River, and six hydro-electric generating plants on BattleCreek and Cow Creek, with an aggregate installation of over 66,000 h. p., then marketing 30,000 h. p. V. 109, p. 173. In Dec. 1919 leased for 15 years the properties of the Sierra & San Francisco Power Co. V. 109, p. 2362.

Franchises in substantially all of the cities and towns served, it is claimed, are perpetual, the U. S. Supreme Court on April 6 1914 having ruled that all franchises of public service corporations within the State of California obtained prior to Oct. 10 1911 were of perpetual duration and could not be altered.

75-cent gas rate in San Francisco held valid by U. S. District Court but reversed by U S. Supreme Court June 2 1924. Company collected at 85-cent rate during years in litigation. See V. 109, p. 2444. Rates, V. 113, p. 195, 499; V. 113, p. 77, 967; V. 115, p. 655; V. 118, p. 916; V. 118, p. 2959; V. 120, p. 1089. Proposed acquisition of distributing system by city of San Francisco, V. 117, p. 1563. Refusal of company to sell, V. 117, p. 1786.

On Feb. 11 1925 the stockholders approved an increase in the authorized bonded debt from $160,000,000 to $250,000,000. V. 120, p. 958. Compare V. 120, p. 88.

In March 1925 the company was authorized by the Calif. RR. Comm. to issue $14,399,000 gen. & ref. 5% bonds to be deposited with the trustees under its first and refunding mortgage. V. 120, p. 1460. Compare V. 120, p. 1204. In May 1925 to issue on or before March 30 1926 at not less than $104 per share, 23,570 common shares (par $100). V. 120, p. 2270.

Gas Rates Reduced.—Reduced in San Francisco June 1 1925. V. 120, p. 2944.

Financing of Melones Dam Hydro-Electric Power Development.—See for particulars about this dam and the financing of it, V. 121, p. 459, 587.

Gas Rates Reduced.—See V. 120, p. 2944.

Sued for Fire Liability.—In Sept. 1925 the company was made defendant in 630 suits filed by 60 insurance companies to recover approximately $4,000,000 in connection with the great Berkeley fire of 1923. V. 121, p. 1570.

Stock.—In July 1914 the issuance of the initial $12,500,000 1st pref. stock for improvements, extensions, refunding, &c., was authorized. The old pref. stock ($10,000,000 auth. and outstanding) became 2d pref. and the auth. amount of com. was reduced from $150,000,000 to $100,000,000. V. 98, p. 1846; V. 99, p. 121. The 2d pref. stock was conv. into 102½% of 1st pref. and has been all thus retired.

Early in 1925 acquired control of the San Joaquin Light & Power Corp. and its affiliated cos., the Midland Counties Public Service Corp. and the Fresno City Water Corp.

In Sept. 1925 the North American Co. arranged to acquire the Western Power Corp. on the basis of 1¼ shares North American common for one share of Western Power common, with a cash alternative of $75. CENTRAL CALIFORNIA TRACTION CO.

ORGANIZATION.—Organized in California in Aug. 1905 to construc_ an interurban system of electric roads for passengers and freight in the central valleys of California. Road operates over private right-of-way except in the cities. *Franchises* in all the cities of the system run for 50 years. An additional freight and passenger franchise was awarded company in May 1909 for City of Sacramento. An assessment of $5 a share was called for payment Feb. 20 1908. V. 86, p. 667. In Jan. 1918 another assessment of $5 per share was levied on both classes of stock, delinquent Feb. 25 1918, to provide additional equipment, improve trackage and restore the company's credit by reducing floating debt. The necessity for this action was ascribed to years of unprofitable operation due to jitney competition, which is now regulated. See V. 106, p. 497.

In Aug. 1925 the Southern Pacific Co. applied to the I.-S. C. Commission for authority to acquire control of the company by exchange of stocks and bonds. For particulars see V. 121, p. 1099.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—An electric road. Operates in the city of Stockton and an interurban line from Stockton through Lodi to Sacramento. Total track operated, 70.8 miles. Has operating agreement with Tidewater Southern Ry., whereby the two lines are operated as one system. Company carries American Railway express matter.

Lease.—The Cal. RR. Comm. in March 1915 authorized the company to lease its lines in Stockton to the Stockton Elec. RR. at a rental of $12,500 a year for first 3 years, and $15,000 yearly for next 35 yrs. V. 100, p. 1167.

Operating Agreement.—Early in 1916 entered into an agreement with the Tidewater Southern Ry. providing for the joint operation of the two lines as one system. The separate corporate existence of each, however, is to be maintained. V. 102, p. 1250.

Plan to Reduce Interest, &c.—In 1917 holders of the 1st M. 5s signed an agreement reducing the int. rate from 5% to 2% for the years 1917, 1918 and 1919 and waiving default in int. and also the sinking fund provision. Compare V. 106, p. 497. Another agreement under same conditions expired Oct. 1 1922. A new agreement has been made whereby bondholders agree to accept 2½% instead of 5% for 1923, 1924 and 1925.

GERMANY

SAXON PUBLIC WORKS, INC.

(Aktiengesellschaft Saechsische Werke).

ORGANIZATION.—Organized in Dresden, Germany, Nov. 13 1923 under the laws of the German Reich and the Free State of Saxony. Since its organization all of the capital stock of the company has been and still is owned by the Free State of Saxony. At the time of its organization the company took over from the Free State of Saxony all of the electric power plants and coal mines owned and operated by the State since 1917, as well as certain stock interests in similar enterprises which had been acquired by the State.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Company is primarily engaged in the generation of electric energy through steam power plants, and its transmission and distribution throughout the State of Saxony and in certain adjacent territories. The territory served has a total population of over 5,000,000, with an aggregate area of about 6,950 square miles, and includes Dresden, with a population of about 611,000, and Leipzig with a population of 680,000. The present electric generating plants of the company have an installed capacity of 96,900 k. w., of which 85,500 k. w. is contained in the principal plant at Hirschfelde in Eastern Saxony. The power is delivered through a transmission and distribution system including 436 miles of high tension lines of steel tower and reinforced concrete pole construction. Of the foregoing, over 245 miles is 100,000 volt long distance transmission line. At present approximately 82% of the available electric output is sold on a wholesale basis to local distributing companies (in some of which the company has a substantial interest), which in turn retail the current in their respective territories: 15% is sold directly to retail customers and 3% is used in the plants and coal mines of the company. See for more information, V. 120, p. 706.

Electrical Output (*Current Sold in Kilowatt Hours*).

1917	36,375,159	1920	77,230,933	1923	292,134,244
1918	66,564,910	1921	144,431,333	1924	356,776,881
1919	60,846,639	1922	243,249,296		

Coal.—Company's coal fields cover an aggregate area of approximately 80,000 acres. Most of the coal is of the so-called "brown coal" or lignite character. Although this coal in its raw state has a relatively low heating content as compared with the best grades of American bituminous coal, it can be extracted at an extremely low cost through the system of open surface workings (which permits the use of continuous bucket dredging and other labor-saving machinery), inasmuch as the average depth of surfaces before reaching the coal strata is only 8 to 16 yards, below which the coal strata extend for a further depth of 32 to 50 yards. Consequently the coal can be delivered to the company's adjacent electric plants at an extremely low cost per unit of heating value.

The output of brown coal from the mines owned has increased from 613,431 metric tons in 1917 to over 1,363,000 metric tons in 1924. Over two-thirds of the output is used in the company's power plants and the balance is either sold to industrial customers in its raw state or is compressed in briquette form (thereby increasing its heating value nearly three times by the elimination of excess moisture) and retailed to local customers in the surrounding territory.

Through more than 1,600 borings the company's brown coal reserves have been reliably established by independent experts at over 3,400,000,000 metric tons, of which over 3,000,000,000 metric tons can be extracted through the above described method of open workings.

Bonds.—The first mtge. 20-year bonds are secured by a direct first mortgage under German law on substantially all of the real property of the company, now owned or hereafter acquired with the proceeds of the bonds, including the electric power plants and coal mining rights, subject, as to certain relatively small portions of the company's real estate, to existing liens aggregating only about $166,667. Inasmuch as all of the stock of the company is owned by the State of Saxony, the company is not required under the Industrial Charges Law (Industrie-Belastungs-Gesetz, Aug. 30 1924) to issue either negotiable or non-negotiable debentures under the so-called "Dawes Plan." In accordance with another law which effects a further internal distribution within Germany of the burden of the so-called "Dawes debentures," the company will be required to make certain annual payments, the amount of which, it was stated, will not exceed $74,000 p. a.

The proceeds of this issue will be used in part for the retirement of the greater part of the $5,856,397 outstanding long term debt, &c.

The bonds are redeemable as a whole on Feb. 1 1930 or thereafter prior to Feb. 1 1935 at 105, and on or after Feb. 1 1935 at 100. Sinking Fund.—Beginning Aug. 1 1935 a sinking fund will operate to retire semi-annually 1-20th of the principal amount of bonds of this issue outstanding on Feb. 1 1935, either by delivery to the trustee of bonds by the company, or by redemption thereof by lot at 100.

Aims and Purposes of

BROWN, BOVERI

History of the Parent Company

Brown, Boveri & Company, Ltd. of Baden, Switzerland was founded by the late C. E. L. Brown, and the late Walter Boveri, in 1891. Mr. Brown's contributions to electrical engineering coupled with Dr. Boveri's financial genius were of such far reaching character that engineers throughout the world acknowledge their leadership from the earliest days of the Electrical industry.

The first long distance transmission of electrical energy is one of the outstanding accomplishments of Mr. Brown's career, and the present great net work of electrical transmission lines had their birth in this achievement.

Niagara Falls

When the promoters of the Niagara Falls Power Company were contemplating the erection of the first and historic plant at Niagara Falls, Mr. Brown was selected to design this equipment.

In addition to the manufacture of electrical equipment the firm in 1900 took licenses to build steam turbines of the Parsons type; since that time B B C have been responsible for many improvements in turbine design which have tended to increase the reliability and economical operation of this type of prime mover.

Railway Electrification

As early as 1898 the Company was doing electrical railway work and supplied the complete equipment for the first standard gauge railway in Europe to be operated solely by electricity. This railway operates now, as originally, on the three phase system. Later the firm supplied both alternating and direct current equipment for both standard and narrow gauge railways and is one of the leading factors in the electrification of European railways.

The firm is known internationally for the excellence of its engineering design and its equipment is comparable to the finest in the world.

Besides the works of the parent company at Baden and Basle in Switzerland, it has associated companies whose plants are located at Milan, Italy; Oslo, Norway; Lyons, Havre, Le Bourget, in France; Mannheim, Germany; Rotterdam, Holland; London, England and it also has representatives or agencies throughout the world.

Products of Brown, Boveri as well as those of controlled American Companies will be offered to the American

IN AMERICA

market through the American Brown, Boveri Electric Corporation—an American owned and managed organization having the complete co-operation and support of the parent Company in Switzerland, and its associated companies.

The American Company has available to it through contractual relations the development, past and future, the technical knowledge and manufacturing skill of Brown, Boveri and its associated Companies.

Adequate Factories

Adequate manufacturing space for the inception of this enterprise has been provided by the purchase of the plant of the New York Shipbuilding Corporation at Camden, N. J. This plant occupies a tract of 191 acres on the Delaware River opposite the City of Philadelphia. The buildings are arranged and equipped for the building of turbines, electric locomotives and (with the addition of winding equipment) generators, transformers, heavy duty oil switches and similar large electrical apparatus. Added to this are the new factories of the Condit Electrical Mfg. Corporation at Hyde Park, Boston, Mass., the products of which require no introduction, and the plant of the Scintilla Magneto Company at Sidney, N. Y.

With these great engineering and manufacturing facilities at its disposal, it is the aim of the American Brown, Boveri Electric Corporation to establish a new source of complete Utility, and Railway and Industrial electrification equipment in America.

The character of service which is offered is indicated by the record of the engineering achievements of Brown, Boveri throughout the world.

Policies

It is the purpose of the American Brown, Boveri Electric Corporation to establish a market for its products by conforming to American practices, to aid and join electrical associations and societies which engender co-operation and development; to bring to America those practices and devices which have elsewhere demonstrated their economic value and satisfactory operation.

Operators and engineers are invited to acquaint themselves with Brown, Boveri engineers and equipment as well as the manufacturing facilities.
